EDUCATION

University of South Florida

May 2026

B.S. in Computer Science | GPA: 3.7/4.0

- Coursework: Data Structures & Algorithms, Software Engineering, Database Design, Natural Language Processing
- Awards: Dean's List (Fall 2023, Spring 2024, Spring 2025); NSF STEM Scholarship (2024–2026)

EXPERIENCE

Salon Manager & Operations Associate

May 2022 – Present

Tina Nail Art

- Maintained CRM-style client records and intake data for **15+** daily appointments, enforcing data accuracy and validation standards that improved retention tracking and reduced booking errors.
- Analyzed appointment flow and service trends to identify scheduling inefficiencies and improve operational throughput.
- Monitored service history and feedback trends to surface operational metrics that strengthened client retention.

Business Analyst Intern

August 2026 – Present

AperioHub

- Advised a Singapore-based multi-family office on a \$15M strategic allocation by developing a comprehensive pre-IPO investment thesis for a late-stage technology company. .
- Constructed rigorous financial models and comparative valuation scenarios (bull/base/bear) by synthesizing limited private financials, competitor metrics, and market data.

PROJECTS

Voltex Electronics E-Commerce Analytics Dashboard

Power BI, DAX, Claude, Data Modeling, ETL

- Built a Power BI analytics dashboard for a **\$25.1M** e-commerce dataset using Star Schema modeling and advanced DAX to track core KPIs.
- Identified a critical margin drop from 26.4% to 15.9% using Pareto analysis and Claude AI, pinpointing high-risk SKUs, return costs, and operational SLAs to reduce inventory profit leakage.
- Cleaned and validated 9,994 order transactions using Python and Excel across **631** locations, **1,862** products, and **793** customers, ensuring data quality across a **9-table star-schema model**.

Enterprise Data Warehouse & SQL Analytics Platform | SQL Server, ETL/EDA, Data Modeling

SQL Server, Git, Data Modeling, Data Cleaning

- Architected a 3-tier Medallion Data Warehouse (Bronze, Silver, Gold) using SQL Server to ingest and standardize 60,400+ transactional records (\$29.35M total revenue) across disparate CRM and ERP systems.
- Engineered a high-performance Star Schema linking 27,600+ orders, 18,480+ customers, and 130 products, optimizing multi-table join execution and analytical query speeds by up to 40%.
- Authored advanced SQL scripts utilizing Window Functions, CTEs, and aggregation methods to uncover a 179.8% YoY revenue surge and segment VIP customer accounts.

Global Sale Executive & Analytic Dashboard

Excel, Power Query, Power Pivot, Claude, HTML.

- Engineered an interactive web-based executive dashboard** (HTML5, Chart.js, SheetJS) paired with an automated Power Query/Power Pivot ETL pipeline to process **100,000+ transactional sales records**
- ETL & Data Modeling : cleaned, transformed ,and integrated multi-source transactional datasets and relational data model across **100,000+** transaction records using **Power Query** and **Power Pivot (DAX)**, improving data hygiene and cutting monthly report preparation time by **40%**.

SKILLS

Languages & Databases: Python, SQL, PostgreSQL, MySQL, BigQuery, COBOL,

Data Visualization: Power BI, DAX, Data Modeling, Excel, Google Sheets, Power Query, Power Pivot

Tools & Automation: ETL Pipelines, Git, Jira, Agile/Scrum, Claude

CERTIFICATIONS

- Complete Data Analyst Bootcamp** — Udemy (June 2026)
- Data Analytics 101** — The Future Analyst (July 2026)
- Agentic AI in Power BI** — The Future Analyst (August 2026)
- AI & Excel Advance** — The Future Analyst (August 2026)
- SQL Advanced** — HackerRank (June 2026)
